## Software Engineer | Mobile Application Developer

+963945678294 | [Whatsapp](#) | [Gmail](#) | [Linkedin](#) | [Portfolio](#)

---

Software Engineer with 4+ years of experience in mobile application development, specializing in Flutter. Skilled in building scalable, high-performance applications, integrating APIs, and optimizing UI/UX for seamless user experiences. Proficient in Agile methodologies and app performance tuning. Passionate about crafting efficient, maintainable code and collaborating in cross-functional teams to deliver top-tier mobile solutions.

## Work Experience

---

### TC of TC | [Jan 2024 – Present]

Worked on **My Supplyz**, an eCommerce platform connecting suppliers and buyers with in-app payments, direct delivery, and business analytics.

#### Key Responsibilities:

- Developed and maintained the mobile application using **Flutter**, with **Bloc** for state management, following **Clean Architecture** principles.
- Integrated **Firebase** for authentication and notifications, and **Agora** for real-time chat.
- Implemented major features for both suppliers and buyers.
- Led feature development, performed **code reviews**, testing, and documented code for maintainability.
- Optimized app **performance** and state management using Bloc for seamless user experience.
- Provided feedback on **UI/UX design** to enhance usability.
- Managed tasks and workflows using GoodDay for effective project tracking.

### Freelance Full-Stack Developer & Team Lead [Jun 2023 – Dec 2023]

*Saladinus – Germany*

#### Key Responsibilities:

- Developed a cross-platform advertising application using **Flutter** for both the user app and admin dashboard, with **Laravel** powering the backend.
- Led a team of two Flutter developers, managing workflow through **Jira**, reviewing pull requests, and maintaining clean, maintainable code across the project.
- Integrated real-time interactions and ensured a smooth UX across both user and admin roles.
- Facilitated collaboration and productivity within the team through clear communication, code quality standards, and a proactive leadership approach.
- Successfully deployed the application to **Google Play**, meeting all client requirements and deadlines.

### Dna GmbH | [Nov 2021 – May 2023]

Worked on **FutChat**, a real-time chat application with WhatsApp-like features and an integrated task management system.

#### Key Responsibilities:

- **Implemented** offline support, **allowing users to access messages, tasks, and calls without an internet connection, using SQLite for local storage.**
- **Integrated the frontend with** Openfire (XMPP protocol) **for real-time messaging and Agora for audio/video calls.**
- **Designed and implemented the** frontend database structure, **contributing to the ERD design.**
- **Used** Bloc for state management **and optimized performance by minimizing unnecessary state updates.**
- **Analyzed and resolved performance issues using** Flutter DevTools Performance Tab **to reduce slow frames.**

# Projects

---

## FutChat Application

Whether it's writing, calling, or video chatting, [FutChat](#) connects you like never before. But here's the game-changer: With a simple swipe, any message can be instantly converted into a task. No more lost to-do lists or forgotten conversations—FutChat turns your words into actions.

## Yolo

Streamline Your Clinic Operations Welcome to the [Yolo Clinic App](#), the all-in-one solution to streamline and optimize your clinic operations. Take your clinic management to new heights with our powerful and user-friendly app designed specifically for healthcare professionals.

## My Supplyz

[MySupplyz](#) is a user-friendly e-commerce platform designed for the Malaysian market, connecting customers, suppliers, and restaurants. The app offers a seamless shopping experience with a wide range of products, secure online payments, and real-time order tracking. Whether you're a customer looking for everyday items or a restaurant sourcing supplies, MySupplyz simplifies the process with easy order management and personalized recommendations. Available in multiple languages, MySupplyz is your go-to app for convenient and reliable shopping in Malaysia

## Saladinus

Discover [Saladinus](#) – your innovative platform for deals and classifieds! Saladinus is designed to enrich and simplify the lives of Arabic speakers in Germany. Dive into a world full of bargains and opportunities. Saladinus offers you a variety of deals and the ability to create free listings. Find, buy, sell, and trade with ease. Get Saladinus today and explore a new dimension of commerce!

## Codelabs

This graduation project, built with React and Next.js, is a platform for sharing and exploring code snippets, known as 'labs.' Users can upload, edit, and render these labs in real time, enabling personalized experimentation. The platform also supports educators by offering virtual classrooms where teachers can manage and interact with students. Additionally, it features a community space for idea sharing and a competitive section for coding challenges, making learning both collaborative and engaging

# Skills

---

- Strong understanding of mobile design principles, UI/UX, and best practices
- Experience with iOS and Android development (Swift, Kotlin, Java)
- Local Storage: SQLite, Hive, SharedPreferences
- Experience integrating RESTful APIs
- Familiarity with cloud message APIs and push notifications
- Real-time Communication: WebSockets, XMPP
- App Deployment: Google Play Store, Apple App Store
- Clean Architecture & SOLID Principles
- State Management: Bloc, Provider, Riverpod
- Solid understanding of mobile security best practices
- Strong debugging and troubleshooting skills
- Strong problem-solving ability
- Unit & Widget Testing
- Experience integrating Firebase Services
- Version Control: Git, GitHub/GitLab/Bitbucket
- Agile & Scrum Methodologies
- Task Management Tools: Jira, GoodDay
- Time management and ability to meet tight deadlines
- Excellent communication with both technical and non-technical stakeholders
- Ability to think creatively and provide innovative solutions
